sides

Hook & Hook Overview

Double Hook Fastener

with magnet | without magnet | with loops or flange

PA 020A-24

with magnet
width 25mm
gauge 2,5mm

Features

- identical male & female part
- reversible front closure
- magnets waterproof encased
- neodyn permanent magnets (nickel-free)
- high tensile strength: 23kg (50lbs)
- possible with logo
- curved

PA 022A-24

without magnet
width 25mm
gauge 2,5mm

Features

- identical male & female part
- reversible front closure
- high tensile strength: 23kg (50lbs)
- possible with logo
- curved

PA 098A-24

with loops
width 19mm
gauge 2,5mm

Features

- identical male & female part
- reversible front closure
- high tensile strength: 23kg (50lbs)
- possible with logo
- without magnet
- flat

PA 099A-24

with flange
width 25,4mm
gauge 12mm

Features

- identical male & female part
- sewing flange
- reversible front closure
- high tensile strength: 23kg (50lbs)
- possible with logo
- without magnet
- flat
